**Dates:**

April 28, 2026, 8:00am - 5:00pm

April 29, 2026, 8:00am - 5:00pm

April 30, 2026, 8:00am -12:00pm

**Location:**

Gus George Law Enforcement Training Facility

1521 Eugene Heimann Circle

Richmond, TX 77469

This course is for initial certification of an Intoxilyzer 9000 breath alcohol testing operator. The course includes information that the operator will need to properly operate the Intoxilyzer 9000 breath testing instrument. Course content includes scientific instrument theory, instructions for conducting breath alcohol tests and trouble shooting. A laboratory practical will also be utilized to demonstrate an operator's proficiency in using the Intoxilyzer 9000 on both non-drinking and drinking (impaired) test subjects. The course is three days with the last day ending at noon. Free of cost. 20 TCOLE hours.

To register please create a cornerstone account. Once the account has been approved, you will be able to log in and register for the class. Search: Breath Test Operator Initial Certification.
